3- Clique em New

The screenshot shows the GitHub profile of 'profdeborapaulo'. The profile includes a circular profile picture of a woman, the name 'profdeborapaulo', an 'Edit profile' button, and statistics showing 22 followers and 12 following. The 'Repositories' tab is active, displaying a list of repositories. At the top of the repository list, there is a search bar and filters for 'Type', 'Language', and 'Sort'. A prominent blue 'New' button is located to the right of the 'Sort' filter. The repository list includes:

- profdeborapaulo** (Public): Config files for my GitHub profile. Updated on Aug 11. Tags: config, github-config.
- rafaballerini** (Public): Forked from rafaballerini/rafaballerini. Updated on May 14.
- github-readme-stats** (Public): Forked from anuraghazra/github-readme-stats. Dynamically generated stats for your github readmes. JavaScript, MIT License. Updated on May 14.
- analise-de-dados-python** (Private): Updated on May 8.
- interfaces-web2-turma-A** (Private): Vamos iniciar os projetos de aula. Updated on May 8.
- Formulario** (Public): Updated on May 8.

4- Coloque um nome para o seu repositório

The screenshot shows the GitHub 'Create a new repository' page. The interface is dark-themed. At the top, there's a header with the GitHub logo, 'New repository', a search bar, and user avatars. The main content area is titled 'Create a new repository' and includes a subtitle: 'A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)'

Below this, a note states: 'Required fields are marked with an asterisk (*)'.

The form fields are as follows:

- Owner ***: A dropdown menu showing 'profdeborapaulo'.
- Repository name ***: A text input field containing 'meuRepositorio'. Below it, a message says 'meuRepositorio is available.'.
- Description (optional)**: A text input field containing 'Este é o meu repositório lá lá lá...'
- Visibility**: Two radio buttons. The 'Public' option is selected, with the description 'Anyone on the internet can see this repository. You choose who can commit.' The 'Private' option is unselected, with the description 'You choose who can see and commit to this repository.'
- Initialize this repository with:** A section with a checked checkbox 'Add a README file' and a link 'Learn more about READMEs.'
- Add .gitignore**: A dropdown menu showing '.gitignore template: None'.
- Choose a license**: A dropdown menu showing 'License: None'.

At the bottom, there's a note: 'This will set `main` as the default branch. Change the default name in your [settings](#).'

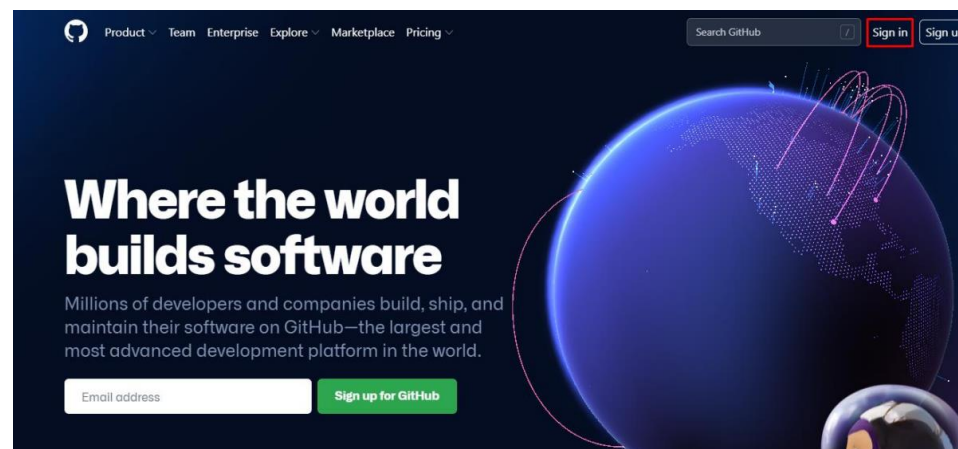

At the very bottom, there's a blue button labeled 'Create repository'.

Annotations on the image include:

- A yellow box around the 'Repository name' field and its availability message.
- A yellow box around the 'Description' field.
- A yellow box around the 'Initialize this repository with' section.
- A red arrow pointing to the 'Public' radio button.
- A red arrow pointing to the 'Create repository' button.

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere?
[Import a repository.](#)

Required fields are marked with an asterisk ().*

Owner * profdeborapaulo / Repository name * projetos-javascript
projetos-javascript is available.

Great repository names are short and memorable. Need inspiration? How about [reimagined-spoon](#) ?

Description (optional)

☒  **Public**
Anyone on the internet can see this repository. You choose who can commit.

☐  **Private**
You choose who can see and commit to this repository.

Initialize this repository with:

☒ **Add a README file**
This is where you can write a long description for your project. [Learn more about READMEs.](#)

Add .gitignore
.gitignore template: None

Choose which files not to track from a list of templates. [Learn more about ignoring files.](#)

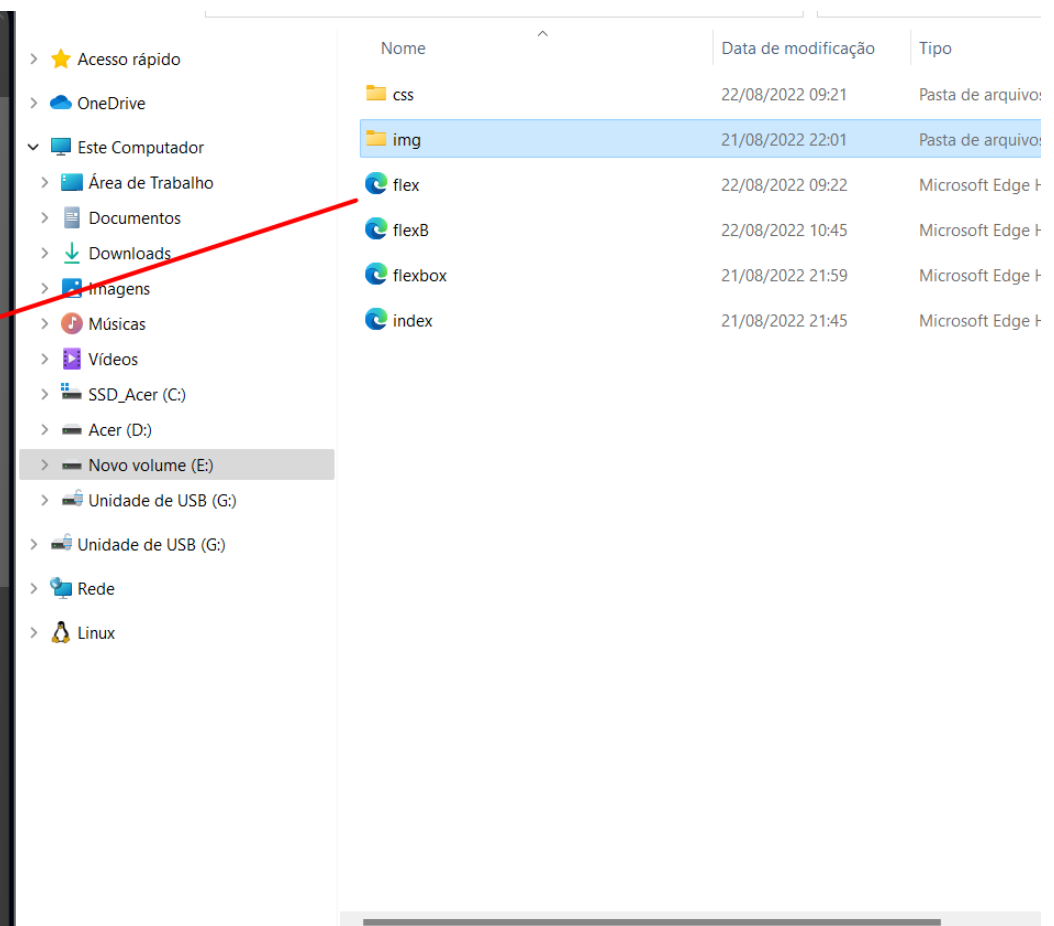

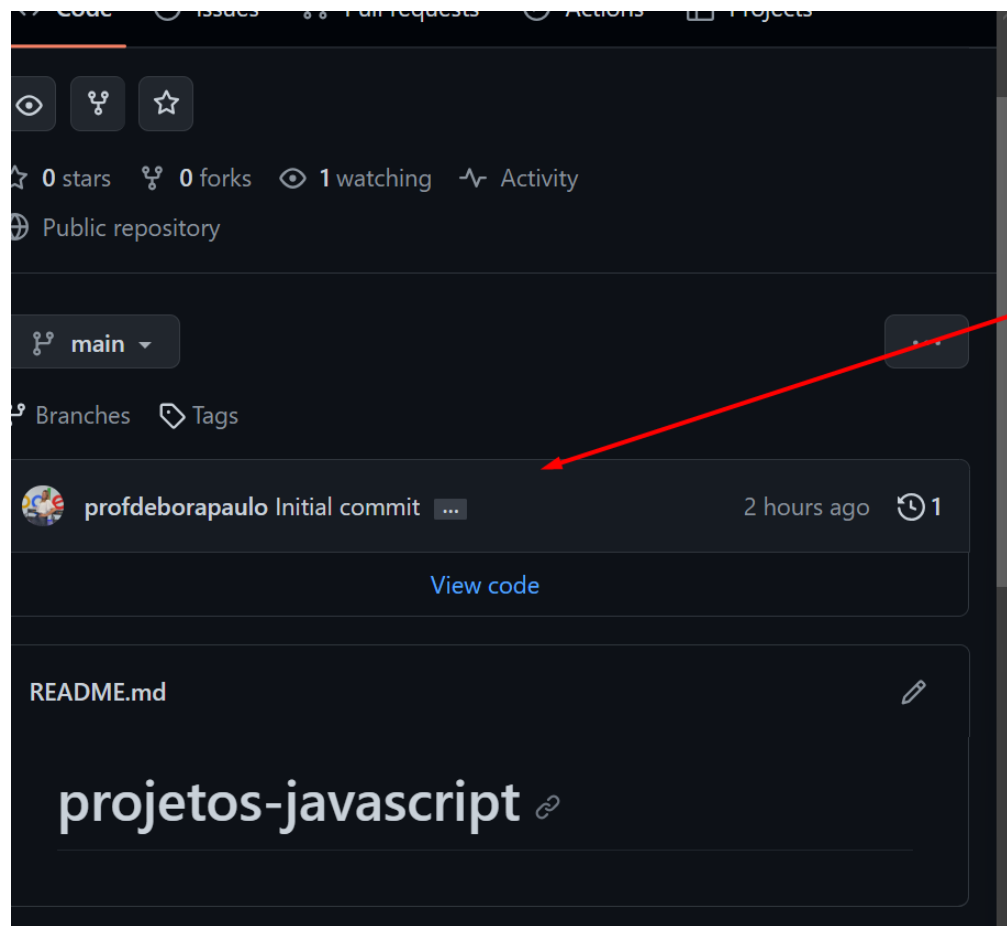

Choose a license
License: None

A license tells others what they can and can't do with your code. [Learn more about licenses.](#)

This will set `main` as the default branch. Change the default name in your [settings](#).

ⓘ You are creating a public repository in your personal account.

Rename

Template repository

Template repositories let users generate new repositories with the same directory structure and files. [Learn more about template repositories.](#)

Require contributors to sign off on web-based commits

Enabling this setting will require contributors to sign off on commits made through GitHub's web interface. Signing off is a way for contributors to affirm that their commit complies with the repository's terms, commonly the [Developer Certificate of Origin \(DCO\)](#). [Learn more about signing off on commits.](#)

Default branch

The default branch is considered the "base" branch in your repository, against which all pull requests and code commits are automatically made, unless you specify a different branch.

main

Social Preview

Upload an image to customize your repository's social media preview.

Images should be at least 640×320px (1280×640px for best display).
